Testimonials

*"I passed!! Thanks a million for your course. I had studied with Kaplan*** prior and didn't pass (only missing it by 2 questions). However I studied your course for 8 days and passed yesterday with no problems at all. Clark is a great instructor and I am thankful that understand the material now instead of just memorizing. Your course is wonderful, and now I am on to the 66."*

"Thank You! The videos, printouts, tests, review pages were great! I will probably never get to meet Mr. Peterson, but I have played and replayed the videos so much that I feel like I almost know him. He is an awesome Instructor--I love his sense of humor and the ideas he presents to help you remember things--especially the "Big Daddy" and "Call her up, and she puts you down" stories. Thanks--now for the Series 63."
